ADMINISTRATIVE COMPLIANCE ORDER ON CONSENT

I. PRELIMINARY STATEMENT

1. This Administrative Compliance Order on Consent ("ACOC") is entered into by the United States Environmental Protection Agency, Region 6 ("EPA") and Respondent, Teledyne Instruments Inc. d/b/a Teledyne A-G Geophysical Products, ("Teledyne" or "Respondent"), and concerns the facility located at 14880 Skinner Road Cypress, Texas 77429 (the "Facility").
2. Notice of this action has been given to the state of Texas, under Section 3008(a)(2) of RCRA, 42 U.S.C. § 6928(a)(2)¹.

¹ On December 26, 1984, the State of Texas received final authorization for its Base Hazardous Waste Management Program (49 FR 48300). Subsequent revisions have been made to the Texas Hazardous Waste Program and authorized by the EPA. Except as otherwise provided, all citations to the EPA Authorized Texas Hazardous Waste Program refer to Title 30 of the Texas Administrative Code ("TEX. ADMIN. CODE"), as amended, effective on February 26, 2016. 80 Fed. Reg. 80672 (December 28, 2015); 40 C.F.R. 272.2201: Texas State-Administered Program: Final

III. STATEMENT OF PURPOSE

8. This ACOC provides for the resolution of EPA Region 6's investigation of Respondent's Facility.
9. In entering into this ACOC, the mutual objectives of EPA, Region 6 and Respondent are to remedy, and/or prevent the potential endangerment to human health and/or the environment from activities involving solid waste and hazardous waste, and to ensure that the injunctive relief that Respondent will complete as described in the Section VI, Compliance Order, is protective of human health and/or the environment.

IV. STATUTORY AND REGULATORY BACKGROUND

10. Federal regulation of hazardous waste is primarily based on RCRA, enacted on October 21, 1976 to amend the Solid Waste Disposal Act, and the Hazardous and Solid Waste Amendments ("HSWA") enacted by Congress in 1984 to further amend the Solid Waste Disposal Act. RCRA establishes a "cradle-to-grave" program to be administered by the Administrator of EPA and authorized states for regulating the generation, transportation, treatment, storage, and disposal of hazardous waste. See 42 U.S.C. § 6901 et seq.
11. RCRA's Subchapter III (RCRA §§ 3001-3023, 42 U.S.C. §§ 6921-6940, known as "Subtitle C") required EPA to promulgate regulations establishing performance standards applicable to facilities that generate, transport, treat, store, or dispose of hazardous wastes. Together, RCRA Subtitle C and its implementing regulations, set forth at 40 C.F.R. Parts 260 – 279, comprise EPA's RCRA hazardous waste program.

17. A corrosive hazardous waste has a pH of less than or equal to 2.0 or greater than or equal to 12.5 and is assigned the D002 hazardous waste code pursuant to 40 C.F.R. § 261.22, and a reactive hazardous waste is assigned the D003 hazardous waste code pursuant to 40 C.F.R. § 261.23.
18. Listed wastes are assigned with "F", "K", "P", and "U" codes in 40 C.F.R. Part 261, Subpart D, depending on the specific waste generated from a non-specific source, a specific source, or discarded commercial chemical products, off-specification species, container residues and spill residues therefrom.
19. 40 C.F.R. Parts 264 and/or 265 applies to owners and operators of facilities that treat, store and/or dispose of hazardous waste.
20. The relevant RCRA statutory and regulatory requirements to this ACOC require that generators of solid waste and hazardous waste must, among other things:
 - A. Determine whether their generated solid wastes are hazardous, pursuant to 40 C.F.R. § 262.11;
 - B. Comply with the statutory notification requirements of Section 3010 of RCRA, 42 U.S.C. § 6930;
 - C. Comply with the manifest requirements, pursuant to 40 C.F.R. § 262.20; and
 - D. Determine its generator status by meeting the exemption conditions set forth at 40 C.F.R. § 262.34 or comply with the specific requirements set forth at 40 C.F.R. § 270.10.

V. FINDINGS OF FACT AND CONCLUSIONS OF LAW

28. The waste stream identified in Paragraph 27 is “solid waste” and “hazardous waste” as defined in 30 TEX.ADMIN.CODE §§ 335.1 (138) and (69), [40 C.F.R. §§ 261.2 and 261.24].
29. From the Investigation, EPA determined that during 2014 and 2016 Teledyne generated at a minimum the hazardous waste streams identified in Paragraph 27 in quantities that exceeded the threshold amount of 100 kilograms of hazardous waste per month, which qualified Teledyne for the small quantity generator (“SQG”) status established under 30 TEX.ADMIN.CODE, Chapter 335, Subchapter C, [40 C.F.R. Part 262], for the periods that such wastes remained onsite.
30. Teledyne is a “generator” of “hazardous wastes” at the Facility, as those terms are defined in Sections 1004(5) & (6) of RCRA, 42 U.S.C. §§ 6903(5) & (6), 30 TEX.ADMIN.CODE §§ 335.1(65) & (69), [40 C.F.R. Parts 260 and 261].
31. As a generator of hazardous waste, Teledyne is subject to Sections 3002 and 3010 of RCRA, 42 U.S.C. §§ 6922 and 6930, and the regulations set forth at 30 TEX.ADMIN.CODE Chapter 335, Subchapter C, [40 C.F.R. Parts 262 and/or 270].

Claims i. Notification Requirements

32. The allegations in Paragraphs 1-31 are realleged and incorporated herein by reference.
33. Pursuant to Section 3010(a) of RCRA, 42 U.S.C. § 6930(a), any person generating a characteristic or listed hazardous waste shall file with the Administrator or authorized State a notification stating the location and general description of such activity and the identified characteristic or listed hazardous wastes handled by such person. No identified characteristic

more of the requirements for SQG under 30 TEX.ADMIN.CODE, Chapter 335, Subchapter C, [40 C.F.R. Part 262 through 268 and 270].

40. At all times relevant to this ACOC, Respondent failed to comply with the SQG requirements in violation of 30 TEX.ADMIN.CODE Chapter 335, Subchapters C, [40 C.F.R. Parts 262 through 268 and 270].

VI. COMPLIANCE ORDER

41. Pursuant to Section 3008(a) of RCRA, 42 U.S.C. § 6928(a), Respondent is hereby ordered to take the following actions, and within thirty (30) calendar days of the effective date of the settlement agreement, Respondent shall provide in writing the following:
- A. Respondent shall certify that it has assessed all of its solid waste streams to determine the accurate waste codes and has developed and implemented Standard Operating Procedures (“SOP”) to ensure that Teledyne is operating in compliance with RCRA and the regulations promulgated thereunder, including, but not limited to, procedures for: (a) making hazardous waste determinations; (b) managing hazardous wastes; (c) reporting, transporting, and disposing of hazardous waste; (d) preparing the manifests; and (e) meeting the requirements of the land disposal requirements;
 - B. Respondent shall certify that it has accurately and adequately complied with its RCRA Section 3010 Notification; and
 - C. Respondent shall provide, with its certification, a copy of Respondent’s SOPs as described in subparagraph A above.

carrying out the activities required by this ACOC, nor shall EPA or the United States Government be held out as a party to any contract entered into by Respondent in carrying out the activities required by this ACOC.

iii. Record Preservation

45. Respondent shall preserve, during the pendency of this ACOC, all records and documents in its possession or in the possession of its divisions, employees, agents, contractors, or successors, which in any way relate to this ACOC regardless of any document retention policy to the contrary.

iv. Cost

46. Each party shall bear its own costs and attorney's fees. Furthermore, Respondent specifically waives its right to seek reimbursement of its costs and attorney's fees under the Equal Access to Justice Act (5 U.S.C. § 504), as amended by the Small Business Regulatory Enforcement Fairness Act (P.L. 04-121), and any regulations promulgated pursuant to those Acts.

v. Reservation of Rights

47. Notwithstanding any other provisions of this ACOC, EPA retains all of its authority to take, direct, or order any and all actions necessary to protect public health or the environment or to prevent, abate, or minimize an actual or threatened release of hazardous substances, pollutants, or contaminants, or hazardous or solid waste or constituents of such wastes, on, at, or from the Facility, including but not limited to the right to bring enforcement actions under RCRA, CERCLA, and any other applicable statutes or regulations.

RE: Teledyne Instruments, Inc. d/b/a Teledyne A-G Geophysical Products
RCRA-06-2019-0919

**THE UNDERSIGNED PARTIES CONSENT TO THE ENTRY OF THIS
ADMINISTRATIVE COMPLIANCE ORDER ON CONSENT:**

FOR THE RESPONDENT:

Date: 3-25-2019

Teledyne Instruments, Inc. d/b/a
Teledyne A-G Geophysical Products

FOR THE COMPLAINANT:
